

تصور لامتحان بكالوريوس العلاج التحفظي

عميد الكلية	الدكتور	الأستاذ	السيد
تحیه طیبه وبعد			

نظرا للظروف الطارئة بسبب فيروس كورنا المستجد نرفق لسيادتكم تصور القسم عن امتحان العملي للفرقة الخامسة لائحة ٢٠١٥/٢٠١٤ يتكون الامتحان من ٣ الأجزاء التالية:

- 1. Assessment of an occluso-mesial (OM) cavity preparation for a composite resin restoration on a natural molar fixed on a cast with 2 natural neighboring teeth to mimic natural teeth contact. This exam will be conducted inside Faculty Clinics and Department staff will do on spot marking for these preparations. <u>All personal protection guidelines</u>, social distancing and infection control measurements should be strictly followed during the real examination for safety of both students and departmental staff. (20 Marks)
- Evaluation of student understanding the concept of selection of dental adhesive system and restorative materials used in restoring the prepared cavities through face-to-face oral discussion with examiners considering all the current safety precautions for both students and staff.

 (10 Marks).
- 3. Assessment the final composite restoration contact, contours, finishing and polishing.

 (10 Marks)
